

Name: Sana Zahid

Assignment # 4 Date: _____

Erpicl = 32442

Q1- Regular expression : (accept all strings that start with 1)
 $1(0|1)^*$

DFA :

Accepted strings :

101

1

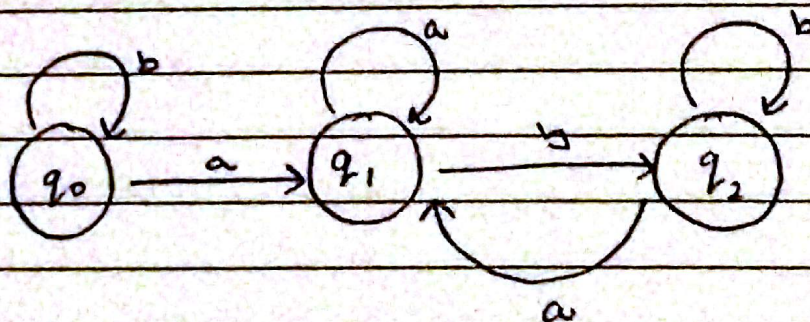

Rejected :

01

0101

Q2- Regular expression: (sentences that end with ab)
 $(a|b)^* ab$

DFA

MIGHTY PAPER PRODUCT

Date: _____

accepted :

ab, babababab

rejected :

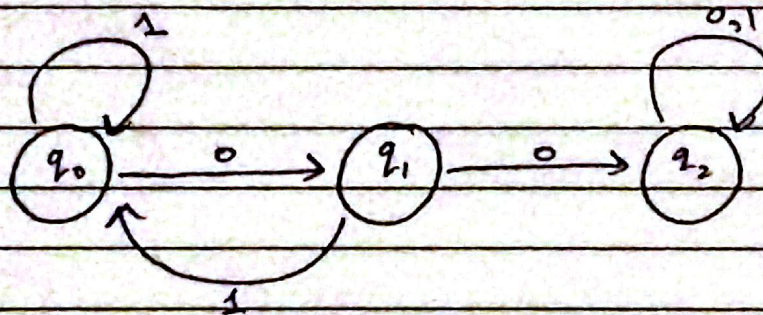

a, ababa

Q3.

regular expression: any string that contains the substring
00 anywhere

$(0|1)^* 00 (0|1)^*$

DFA :

accepted

00, 110011

rejected

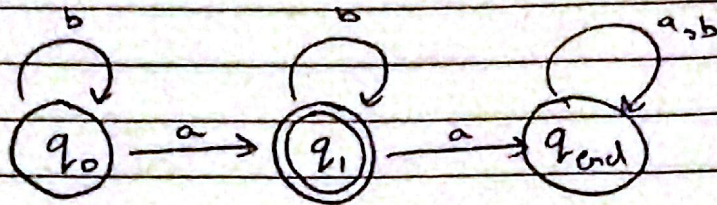

0, 101010

Date: _____

Q4-

regular expression : string must contain only one a
 $b^+ ab^+$

DFA

accepted :

a
bbba

rejected

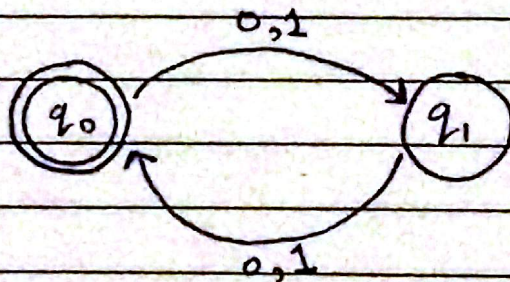

bbb, ababab

Q5-

Regular expression : accept strings that have an even length

$((011)(011))^*$

DFA :

MIGHTY PAPER PRODUCT

Date: _____

accepted : 1011 , 101010

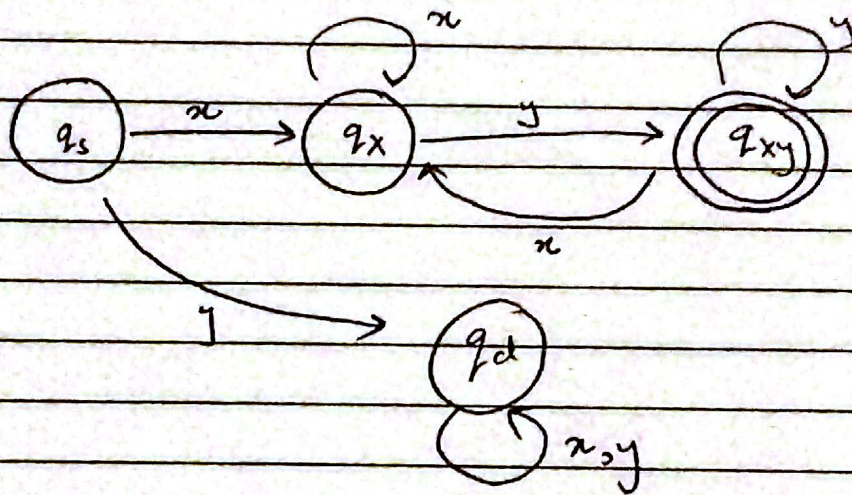

rejected : 111 , 10101

Q1-

regular expression: string that starts with x and ends with y

$$x(x|y)^*y$$

DFA

accepted

xy, xxy

rejected

$x, yxxy$

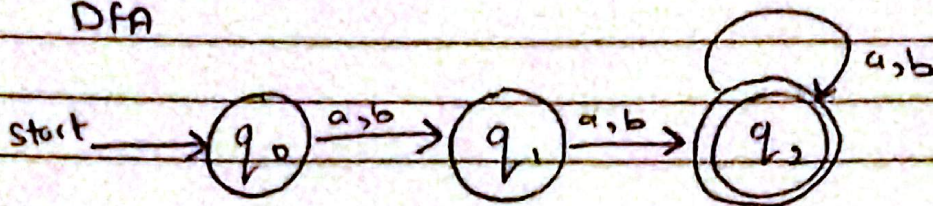

Date: _____

Q9-

regular expression: accepts strings that have a length of at least 2

$$(a|b)(a|b)(a|b)^*$$

DFA

accepted

aa
abab

rejected

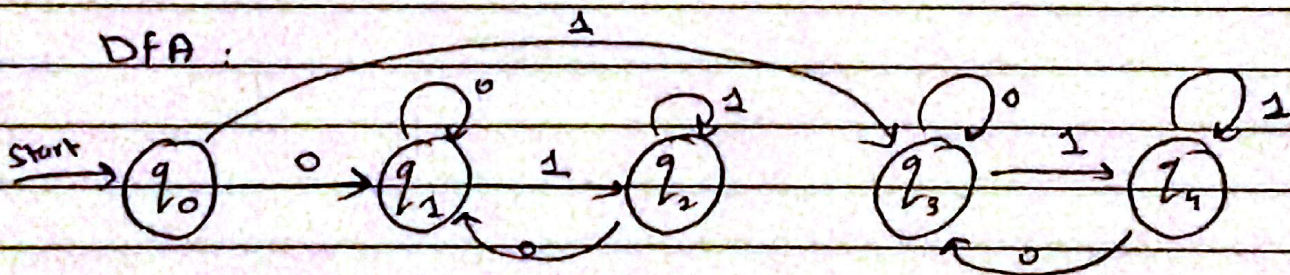

ϵ (empty string)
a

Q10 -

regular expression: strings that start with either a 0 OR end with a 1

$$0(0|1)^* | (0|1)^* 1$$

DFA:

accepted:

000
111

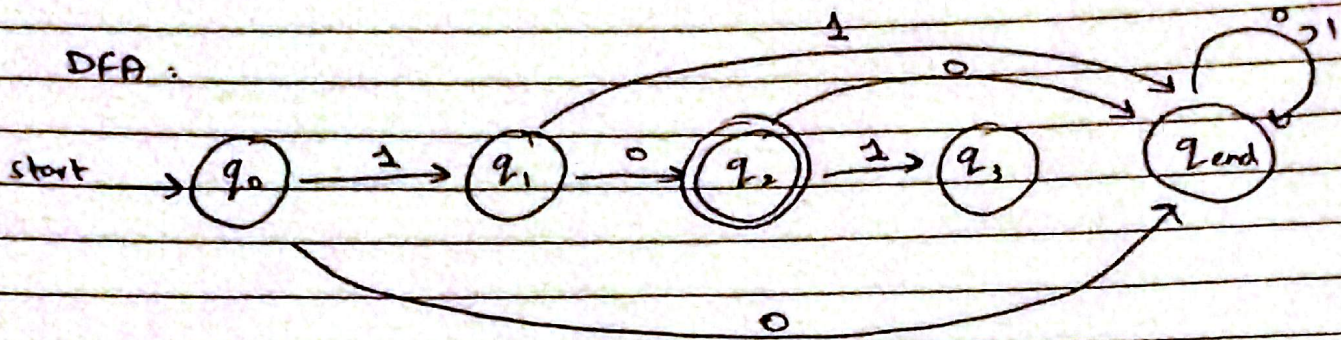

rejected:

ϵ (empty string)
10

MIGHTY PAPER PRODUCT

Date: _____

Q6- regular expression: only accepts the exact string 101
101

accepted :

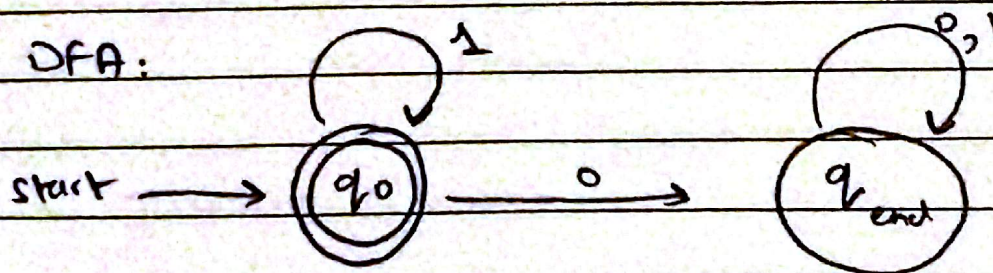

101

rejected :

1011, 10

Q8

regular expression: string made up entirely of ones or an empty string
 1^*

accepted :

111

1

rejected :

1010

000
